# Drive to Nyerere/Selou National Park

Everyone should visit the Unesco World Heritage-listed Selous at least once in their lives. Look for zebra, giraffe, hippo, crocodile, buffalo and wildebeest, as well as elephant and the rarer spotted hyena, leopard and African wild dog. And lions – lots of lions: many scientists believe that Nyerere National Park has more lions than any other park in Africa. Wherever you look, the views are also impressive, with rocky hills, palm-fringed lakes, and the wide Rufiji River running through the heart of the reserve.

### Boat Safari, Nyerere National Park

You're in for one of southern Tanzania's highlights when we take you out on a boat trip on the Rufiji River. It's a chance to enjoy being out on the water, watch the crocs and hippos, and scan the riverbank to see what other animals come down for a drink.

Your guide will tailor your game drive around your preferences, whether it's tracking a particular species or spending extra time at each sighting as you explore the game-rich landscapes of the Selous, ranging from open plains to dense woodlands and the shores of huge lakes - an ideal habitat for a wide array of animal and bird species.

A huge variety of wildlife can be seen. Perhaps you'll watch elephants' parade past your car, close enough for you to see every dust-crusted wrinkle. You may spend time in the shade of a large tree, gazing up at a leopard; or enjoying the playful antics of a pack of African wild dogs.

### Night Game Drive, Nyerere National Park

Not only do night game drives allow you to observe nocturnal animals such as porcupines, civet cats, and armadillos, they are also a fantastic way to see nocturnal predators and herbivores in their element.

Big cats such as leopards and lions do much of their hunting after dark, while hippopotamus trade their watery homes for grazing out on the plains

This is a different approach to safari; an insight into how everything is connected, how it survives and thrives when the environment is left as nature intended.

Bush walks are a great way to get close to nature and learn more about the smaller species and the bush itself. A bush walk gives you the chance to explore the intricate details of the bush, from tiny insects to towering trees, as well as stretch your legs. Although you may spot some giraffes, or warthog, or walk in the footsteps of elephants, our bush walks are tailored to give you the opportunity to learn about the things you miss from a vehicle or boat - the ecosystem that the animals live in. Your guide will share fascinating insights into the plants, birds, and smaller animals that often go unnoticed during traditional game drives, and you'll learn to identify animal tracks and signs
