# Drive to Central Serengeti National Park

This is where all of your planning becomes a reality: your safari starts now. Tanzania is such a wonderful country when it comes to wildlife and beautiful landscapes. After we greet you and answer any questions you might have, we'll take great pleasure in taking you out and showing you what we mean.

You'll never forget the time you spend in the Serengeti. Perhaps it will be the sightings of leopard and cheetah as they show their skills as feared hunters of the plains and valleys. Or that unforgettable moment when an elephant family feeds alongside your vehicle, so close you could almost reach out and touch them. Or the first time you hear a lion roar. Then there are the herds of buffalo, zebra or wildebeest so large that they move as one across your horizon, like a river. All of these experiences are possible in the Serengeti, one of the most beautiful parks in Africa.

## Evening Game Drive, Serengeti National Park

You'll love the warm light and cooler temperatures as we take you out to explore on your evening game drive.

This time of day is when both predators and prey are most active and it can feel as though anything could happen at any moment. This is when you'll most enjoy being on safari.

 Accommodation | Day 1  
**Nyani Campsite**  
Inside Serengeti National Park

You couldn't be in a more central position of the Serengeti than you will be at Nyani Campsite. It's spread out across the grass in the central Seronera area of the park.

There's always lots of wildlife nearby (including sometimes inside the camp itself, which certainly sharpens the senses when you need to go to the toilet at night). Nyani has communal bathrooms and a shared kitchen.

# Full Day Game Drive in Central Serengeti National Park

Welcome to the UNESCO World Heritage-listed Serengeti, one of Africa's top safari destinations. While you're here, there's an excellent chance that you'll see leopards along the dry riverbanks, cheetahs out on the grasslands, and elephants, giraffes and all kinds of antelopes everywhere across the park. Watch also for the Serengeti's famous lion prides. And that's just the start. Some of the largest and most diverse wildlife populations on the planet roam the Serengeti, not to mention millions of wildebeest and zebras who migrate across the plains every year.

## Early Morning Game Drive in Central Serengeti, Departs to Ngorongoro Crater

Your first sight of Ngorongoro Crater is likely not one you'll easily forget. As seen from the crater rim, this natural bowl, both vast and intimate, is one of Africa's most beautiful natural features, stretching 19 green kilometers (12 miles) from one side to the other. Down in the crater itself, you'll explore an astonishingly rich, self-contained ecosystem that is protected by high crater walls. Here, lions and hyenas hunt wildebeest and Grant's gazelle within sight of elephants and black rhinos. Your day spent here will reveal a surprising variety of habitats, from the Lereal Forest and salty Lake Magadi to the plains that rise and fall gently all across the valley floor.

### Early Morning Game Drive, Serengeti National Park

The world feels fresh and new on an early morning game drive, the sun has yet to beat down upon the earth, and it may end up being your favorite time to be out on safari.

Accommodation | Day 3

#### Ngorongoro Simba Campsite

On the crater rim

Hang out with other travelers and swap safari stories with them when you stay with us at Ngorongoro Simba Campsite. It's a camping area high on the crater rim, and the views from here as the morning mist rises from the crater are simply wonderful. The location is also conveniently close to the main descent road down into the crater, which tells this remarkable story.
