Driving to Nyerere/Selou National Park (Go on Boat Safari)

This is where all of your planning becomes a reality: your safari starts now. Tanzania is such a wonderful country when it comes to wildlife and beautiful landscapes. After we greet you and answer any questions you might have, we'll take great pleasure in taking you out and showing you what we mean.

Everyone should visit the Unesco World Heritage-listed Selous at least once in their lives. Look for zebra, giraffe, hippo, crocodile, buffalo and wildebeest, as well as elephant and the rarer spotted hyena, leopard and African wild dog. And lions – lots of lions: many scientists believe that Nyerere National Park has more lions than any other park in Africa.

Wherever you look, the views are also impressive, with rocky hills, palm-fringed lakes, and the wide Rufiji River running through the heart of the reserve.

Early Morning Bush Walk & Drive back to Dar es Salaam

This is a different approach to safari; an insight into how everything is connected, how it survives and thrives when the environment is left as nature intended.

Bush walks are a great way to get close to nature and learn more about the smaller species and the bush itself. A bush walk gives you the chance to explore the intricate details of the bush, from tiny insects to towering trees, as well as stretch your legs. Although you may spot some giraffes, or warthog, or walk in the footsteps of elephants, our bush walks are tailored to give you the opportunity to learn about the things you miss from a vehicle or boat - the ecosystem that the animals live in. Your guide will share fascinating insights into the plants, birds, and smaller animals that often go unnoticed during traditional game drives, and you'll learn to identify animal tracks and signs

This marks the end of your safari in Tanzania. We hope that you have enjoyed your trip and that you're already planning your next safari.
